Architectural Design Summative Assessment Rubric

Instructions: For each project assessment read the corresponding criteria that fulfills each grade level. Circle the evidence related to what you have earned and write what you did specifically to earn that score in the spaces provided below the rubric.

Standard L1.V.CO.1: Document the process of developing ideas from early stages to fully elaborated ideas.

Proficiency Level	Criteria	Evidence (Circle one box for each assessment)		
		Assessment 1: Design	Assessment 2: Form	Assessment 3: Presentation
Exceptional 4	I exceed expectations and can apply the standard in complex ways.	I created a highly detailed image that shows a functional form rooted in a type of architectural design or incorporated other unrequired inclusions.	I completed a quality functional architectural form with specific and well crafted details that relate to an intended architectural style.	The final colored finish and presentation were done with care for quality and detail which enhances the final form and presentation.
Proficient 3	I meet the expectations described in the standard and can do them independently.	I created an image of a functional form rooted in a specific architectural style.	I completed a birdhouse with stylized inclusions relating to my intended architectural style.	I finished painting/glazing and created a way to display my final form-hanging or standing.
Approaching Proficient 2	I am getting close to meeting expectations and can do the simpler part of the standard independently.	I have created an image for a birdhouse but the inclusion of architectural style is limited or not very apparent.	I made a birdhouse with limited design aspects relating to my intended style or with significant defects in quality.	I finished painting/glazing my birdhouse with some defects in quality or lacking inclusions for final presentation-hanging/standing.
Emerging Proficiency 1	I still need support from my teacher to do the simpler parts of the standard.	I am still working on my sketched design for the birdhouse.	I am in the process of constructing my birdhouse and have not yet finished.	I have not yet completed my final detailing on the birdhouse.
